

Precious & Battery Metals Summit
Zurich 2018

November 2018

TSX-V:FWZ

Cautionary Statements

The following statements are required by Canadian securities legislation:

PEA Cautionary Note:

Readers are cautioned that the PEA is preliminary in nature, it includes inferred mineral resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that the PEA results will be realized. Mineral resources that are not mineral reserves do not have demonstrated economic viability. Additional work is needed to upgrade these mineral resources to mineral reserves.

Forward-Looking Statements

This news release contains “forward-looking” statements and information relating to the Company and the Macmillan Pass Project that are based on the beliefs of Company management, as well as assumptions made by and information currently available to Company management. Such statements reflect the current risks, uncertainties and assumptions related to certain factors including but not limited to, without limitations, exploration and development risks, expenditure and financing requirements, general economic conditions, changes in financial markets, the ability to properly and efficiently staff the Company’s operations, the sufficiency of working capital and funding for continued operations, title matters, First Nations relations, operating hazards, political and economic factors, competitive factors, metal prices, relationships with vendors and strategic partners, governmental regulations and oversight, permitting, seasonality and weather, technological change, industry practices, and one-time events. Additional risks are set out in the Company’s prospectus dated May 9, 2017 and filed under the Company’s profile on SEDAR at www.sedar.com. Should any one or more risks or uncertainties materialize or change, or should any underlying assumptions prove incorrect, actual results and forward-looking statements may vary materially from those described herein. The Company does not undertake to update forward-looking statements or forward-looking information, except as required by law.

NI43-101 Qualified Person:

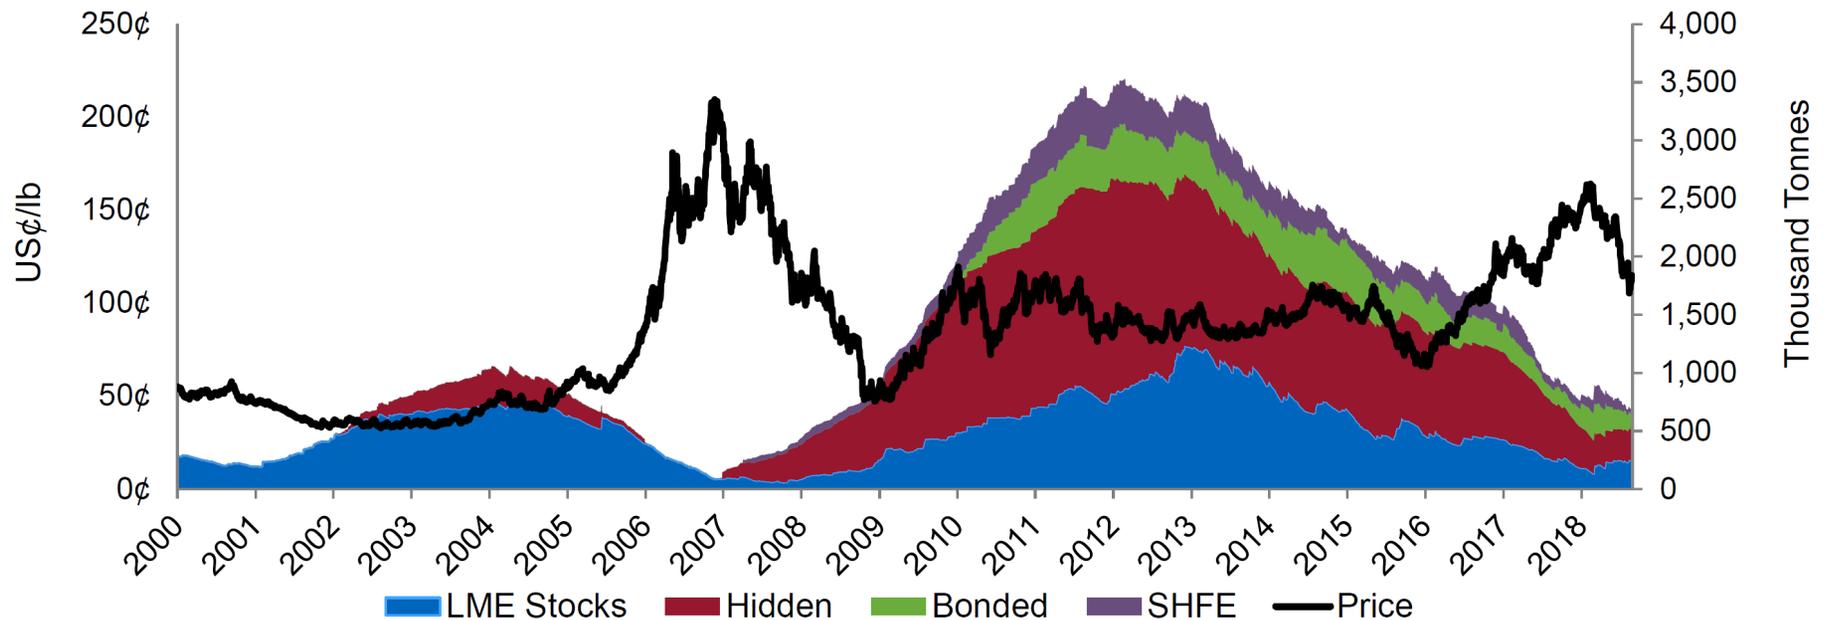

Brandon Macdonald P. Geo, CEO and Director of Fireweed Zinc, and a Qualified Person under the meaning of Canadian National Instrument 43-101, is responsible for the technical information in this presentation.

So...

Why

ZINC?

Deficit and Declining Stocks?

Increasing Price

Source: Teck

Not Just Autos and Infrastructure

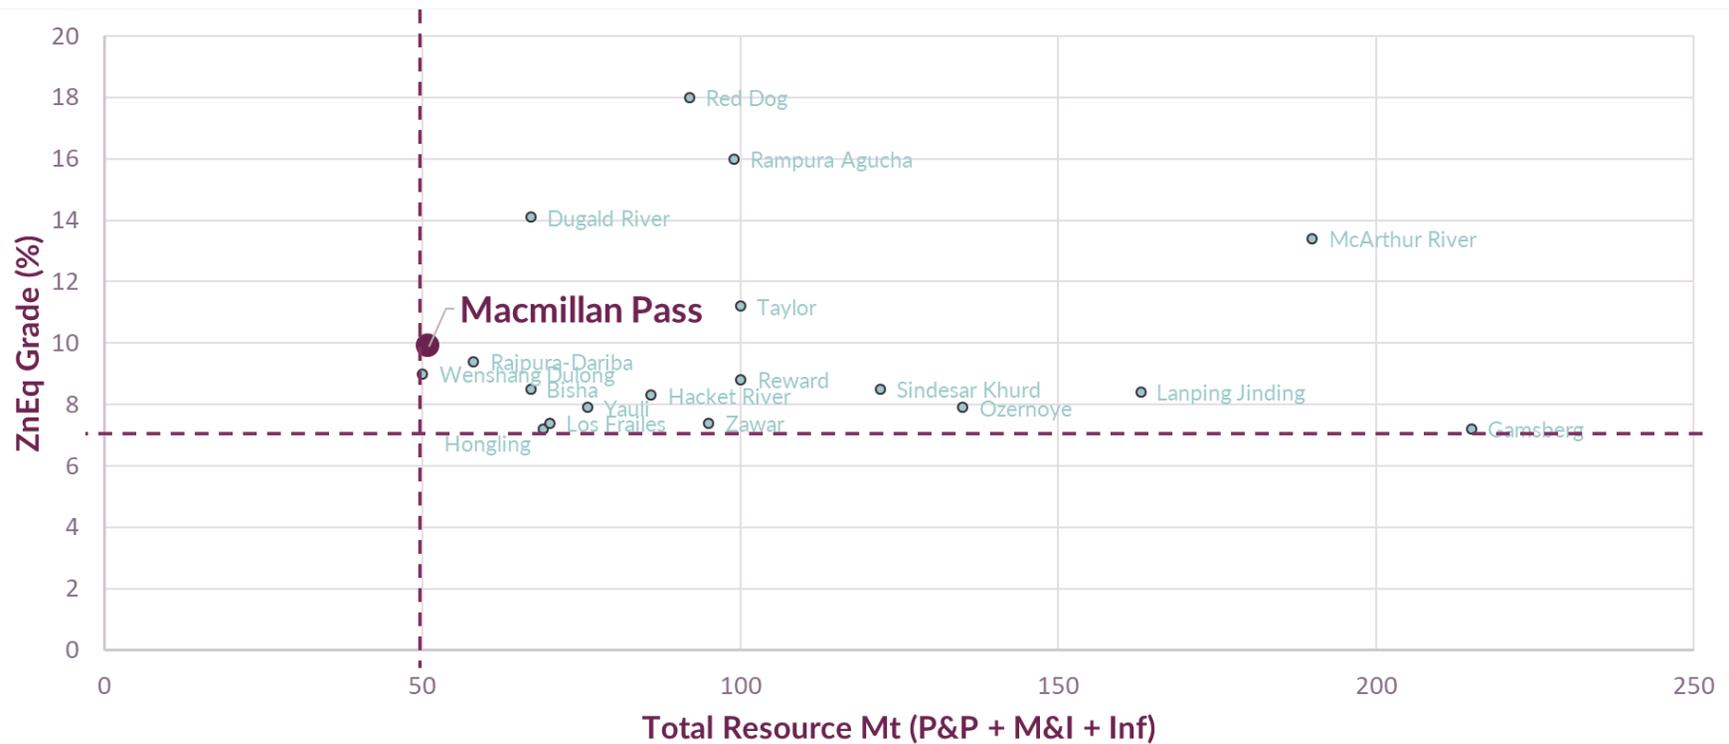

OK.

What the Heck is
FIREWEED?

Big **BIG** Resource

	tonnes	Zn %	Pb %	Ag g/t	ZnEq%
Indicated Total	11,207,000	6.59%	2.48%	21.33	9.61%
Inferred Total	39,465,000	5.84%	3.14%	38.15	10.00%

Globally Significant Resource

Note: Mt. Isa not plotted (660 Mt @ 9.83% ZnEq); Aznalcollar project not plotted (litigation)

Mining Friendly Yukon Territory

Mine Life	18 Years
After-Tax NPV8	\$448
After-Tax IRR	24%

Attractive

Economics

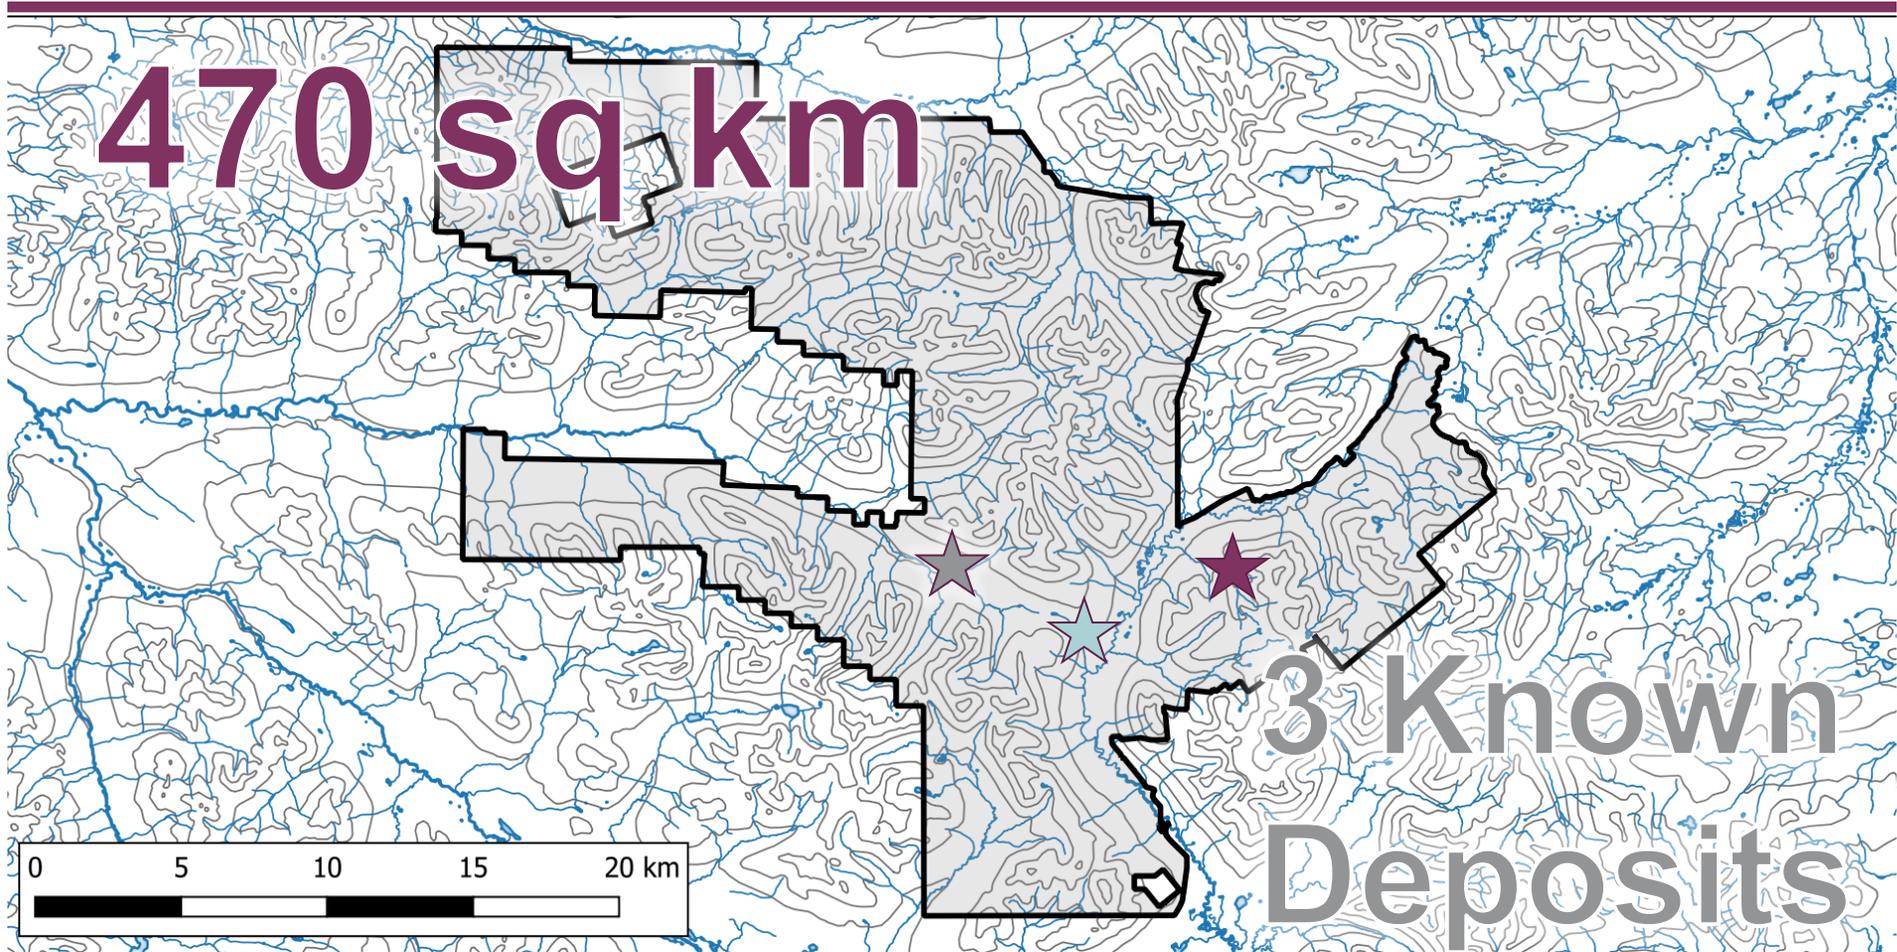

**BUT WAIT,
THERE'S MORE!**

21.1% Zinc

13.5% Lead

243g/t Silver

Step-Out Over 16.4m

Conclusion

**Zinc
Structural Deficit**

**Energy
Storage
Revolution**

**Big, Attractive
Project**

**Only Getting
Better**

Thank You!
